Retention of Personal Information

KSE keeps Personal Information as long as it is needed to provide our products and services, comply with legal obligations or protect our interests. KSE decides how long we need information on a case-by-case basis. The following factors are taken into consideration when making such a determination:

- If KSE needs the Personal Information to operate or to provide our products.
- The amount, nature, and sensitivity of the Personal Information.
- The feature we use it for, and how that feature works.
- How long we need to retain the Personal Information to comply with certain legal obligations.
- If we need it for other legitimate purposes, such as to prevent harm, investigate possible violations of our terms or policies, promote safety, security and integrity, or to protect KSE and its employees, including protection of rights, property, or commercial interests.

Summary of Consumers' Rights

The following is a summary of a Consumer's rights under the CCPA, including any amendments thereto:

Right to Know Specific Information

You have the right to request that KSE disclose certain information to you regarding your Personal Information collected by KSE in the preceding 12 month period as long as doing so does not prove impossible or involve disproportionate effort on KSE. Specifically, you have the right to request the following:

- The categories of Personal Information collected about you;
- The categories of sources from which the Personal Information was collected;
- KSE's business or commercial purpose for collecting your Personal Information or, if applicable, selling or sharing your Personal Information;
- The categories of third parties to whom KSE discloses your Personal Information; and
- The specific pieces of Personal Information collected about you.

Right to Delete Information

You may request that KSE delete any of your Personal Information retained by it, subject to certain exceptions. Upon receiving and confirming your California Request (as defined below), KSE will delete (and direct its Contractors and Service Providers to delete) such Personal Information from KSE's (or such Contractors' or Service Providers') records, except that KSE may deny your request if retaining the Personal Information is necessary for KSE or one of its Contractors or Service Providers to:

- Complete the transaction for which KSE collected the Personal Information, provide requested products and services, take actions reasonably anticipated within the context of KSE's ongoing business relationship with you, or otherwise perform a contract between KSE and you;
- Detect security incidents, protect against malicious, deceptive, fraudulent, or illegal activity, or prosecute those responsible for such activity;
- Debug products to identify and repair errors that impair intended functionality;
- Exercise free speech, ensure the right of another Consumer to exercise his or her free speech rights, or exercise another right provided by law;
- Comply with the California Electronic Privacy Act (Cal. Penal Code § 1546 et. seq.);
- Enable solely internal uses that are reasonably aligned with Consumer expectations based on a Consumer's relationship with KSE;

- Maintain internal records reasonably required for audits by external and internal auditors (including, but not limited to, accountants, banks and other financial institutions, and government authorities);
- Comply with a legal obligation; and
- Make other internal and lawful uses of Personal Information that are compatible with the context in which the Personal Information was provided.

Right to Correct Information

You may request that KSE correct your Personal Information if it is inaccurate, taking into account the nature of the Personal Information and the purposes of the processing of the Personal Information. Upon receiving your California Request, KSE will use commercially reasonable efforts to correct your Personal Information.

No Discrimination

KSE will not discriminate against a Consumer for exercising any rights under the CCPA, as amended. In particular, if a Consumer exercises any such rights, KSE will not:

- Deny goods or services to a Consumer;
- Charge a Consumer different prices or rates for products or services, including through granting discounts or other benefits, or imposing penalties;
- Provide a Consumer a different level or quality of products or services; or
- Suggest that a Consumer may receive a different price or rate for products or services, or a different level or quality of products or services.

However, KSE may offer a Consumer certain financial incentives permitted by the CCPA that can result in different prices, rates, or quality levels. Any such financial incentives offered by KSE will reasonably relate to the value of Personal Information, and contain written terms that describe the material aspects of such financial incentives. A Consumer's prior opt-in consent, which may be revoked at any time, is required before the Consumer obtains such financial incentives.

Verifiable Consumer Requests

To exercise your rights described in these disclosures and the Notice, you must submit a verifiable consumer request (a "California Request") to KSE as set forth in the Contact Information Section of the Notice. Only you, or an agent registered with the California Secretary of State that you authorize to act on your behalf, may make a California Request relating to your Personal Information. You may also make a California Request on behalf of your minor child.

The California Request must:

- Provide sufficient information that allows KSE to reasonably determine you are the person about whom KSE collected Personal Information or an authorized representative.
- Describe your request with sufficient detail that allows KSE to properly understand, evaluate, and respond to it.

KSE cannot respond to a request or provide Personal Information if it cannot verify your identity or the individual's authority to make the request on your behalf unless it can confirm that the Personal Information relates to you. KSE will only use Personal Information provided in a California Request to verify the requestor's identity or authority to make the request.

KSE's Response

KSE endeavors to respond to a California Request within 45 days of its receipt. If KSE requires more time (up to an additional 45 days), we will inform you of the reason and extension period in writing. KSE will deliver its written response by mail or electronically, at your option. Any disclosures provided by KSE will only cover the 12-month period preceding receipt of the verifiable consumer request. The response provided by KSE will, if applicable, explain the reasons KSE cannot comply with a request. For data portability requests, KSE will select a format to provide your Personal Information that is readily useable and should allow you to electronically transmit the information from one entity to another entity without hindrance.

KSE does not charge a fee to process or respond to your California Request unless it is excessive, repetitive, or manifestly unfounded. If KSE determines that your request warrants a fee, KSE will tell you why a fee is warranted and provide you with a cost estimate before completing the request.

Revisions to These Disclosures

KSE may revise these disclosures from time-to-time by posting the revisions on the Site. Any such revision will take effect immediately upon such posting. It is a Consumer's responsibility to periodically check the Site for revisions to these disclosures.
